Notes to the Condensed Consolidated Interim Financial Statements

Three Months Ended October 31, 2012 and 2011

(Expressed in Canadian Dollars, Unaudited)

1. Nature of Operations and Going Concern

Bravada Gold Corporation (the "Company" or "BVA") is an exploration stage company incorporated under the laws of British Columbia on September 4, 2009. The Company's shares are listed on the TSX Venture Exchange (TSX-V). On January 7, 2011, the Company and Fortune River Resource Corp. entered into an amalgamation agreement and formed a new entity under the same name, Bravada Gold Corporation.

The Company's principal business activities include the acquisition, exploration, and development of natural resource properties located in Canada and the United States. The Company's registered office is 1710 - 1177 West Hastings Street, Vancouver, British Columbia, Canada, V6E 2L3.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that any of the Company's current or future exploration programs will result in profitable mining operations. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete their exploration and development, and establish future profitable operations, or realize proceeds from their sale. The carrying value of the Company's mineral properties does not reflect present or future value.

These condensed consolidated interim financial statements were prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at October 31, 2012, the Company had a working capital deficiency of \$675,616 (July 31, 2012 - \$294,143). The Company incurred a net loss of \$254,434 for the three months ended October 31, 2012 (2011 - \$552,310) and had an accumulated deficit of \$9,697,252 as at October 31, 2012 (July 31, 2012 - \$10,180,728).

As at October 31, 2012, the Company does not have sufficient working capital to meet its administrative overheads and continue its exploration programs. The Company has relied mainly upon the issuance of share capital to finance its activities. Future capital requirements will depend on many factors including the Company's ability to execute its business plan. The Company will be required to issue share capital to finance future activities through private placements and the exercise of options and warrants and is actively seeking additional equity financing. There can be no assurance that such financing will be available on a timely basis under terms acceptable to the Company. Inability to secure future financing would have a material adverse effect on the Company's business, results of operations, and financial condition.

These condensed consolidated interim financial statements do not include the adjustments to assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

2. Basis of Preparation

These condensed consolidated interim financial statements were prepared in accordance with International Accounting Standards 34: *Interim Financial Reporting* on a historical cost basis using the accrual basis of accounting, except for cash flow information and financial instruments measured at fair value.

2. Basis of Preparation, continued

They do not include all of the information required for full annual consolidated financial statements and should be read in conjunction with the Company's audited annual consolidated financial statements for the year ended July 31, 2012.

These condensed consolidated interim financial statements include the accounts of the Company and its wholly-owned integrated subsidiaries: Bravo Alaska Inc., incorporated in Alaska, USA, and Rio Fortuna Exploration (U.S.), Inc., incorporated in Nevada, USA.

All inter-company transactions and balances have been eliminated upon consolidation.

The Company's functional and presentation currency is the Canadian dollar.

3. Summary of Significant Accounting Policies

The same accounting policies are used in the preparation of these condensed consolidated interim financial statements as for the most recent audited annual consolidated financial statements and reflect all the adjustments necessary for fair presentation in accordance with International Financial Reporting Standards ("IFRS") of the results for the interim periods presented.

4. Marketable Securities

On January 1, 2010, the Company entered into an agreement and granted NuLegacy Gold Corporation ("NuLegacy") an option to acquire a 70% interest in the Half Ounce property, located in Nevada, USA (agreement terminated on April 19, 2011). As per the agreement, NuLegacy issued 50,000 common shares to the Company.

On July 25, 2011, the Company entered into an agreement and granted Terra Rossa Gold Ltd. ("Terra Rossa") an option to acquire an initial 51% interest in the Signal claims, located in Nevada, USA (agreement terminated on December 3, 2012). As per the agreement, Terra Rossa issued 50,000 common shares to the Company on July 23, 2012.

Terms of the agreements for these properties are described below:

(a) Wind Mountain

Pursuant to an option agreement dated February 27, 2006, the Company earned a 100% interest in certain mineral claims located in northwestern Nevada. These claims are subject to a 2% net smelter royalty ("NSR") of which the Company may purchase 1% for US \$1,000,000 before commencement of commercial production.

On February 15, 2007, the Company signed a lease agreement, as amended, with a private vendor for the lease of an additional ten mineral claims located in Washoe County, Nevada, contiguous to the Company's Wind Mountain project.

Pursuant to the lease agreement for the ten claims, the Company is required to make remaining advance minimum royalty ("AMR") payments of:

- US \$25,000 on February 15, 2013, and annually thereafter.

These claims are subject to a 3% NSR on all production from the leased claims on the commencement of commercial production, of which 2% may be purchased at the rate of US \$1,000,000 per percentage point.

On September 18, 2012, the Company signed a Letter of Intent ("LOI") with Argonaut Gold Inc. ("Argonaut") for the continued exploration and development of the Wind Mountain property.

5. Mineral Properties, continued

(a) Wind Mountain

Under the terms of the LOI, Argonaut has entered into an initial six month exploration commitment of US \$250,000, partly to conduct a drilling program and partly to reimburse claim fees and stake new open ground.

Argonaut has appointed the Company as operator of the property, during which time the Company may charge an operator fee of 10% on all exploration expenditures incurred.

At the end of the initial period, Argonaut can fund staged expenditures totalling US \$7,500,000 over a three-year period to earn the option to purchase the project by paying a price of US \$30 per ounce of gold-equivalent contained within measured and indicated resource categories as determined by independent qualified persons. The purchase price will be paid 50% in cash and 50% in shares. The Company would retain a 1% NSR for any production from the property in excess of the purchased ounces.

(b) Quito

Pursuant to an option agreement dated May 27, 2011, as amended, the Company has the right to acquire certain unpatented mining claims in Lander County, Nevada.

The Company can earn a 70% interest in the property by spending US \$2,500,000 over five years as follows:

- complete an initial drill program by December 31, 2013;
- incur not less than an aggregate US \$1,150,000 of expenditures on or before November 1, 2013;
- incur not less than an aggregate US \$1,500,000 of expenditures on or before November 1, 2014;
- incur not less than an aggregate US \$2,000,000 of expenditures on or before November 1, 2015;
- incur not less than an aggregate US \$2,500,000 of expenditures and deliver a final report to the optionor on or before November 1, 2016.

If the agreement is terminated for any reason prior to incurring an aggregate US\$500,000 of expenditures, the difference between the actual expenditures incurred and the aggregate amount of US\$500,000 shall become payable in cash within 30 days of the date of termination.

Within 60 days after the Company completes the earn-in, the optionor can either:

- establish a joint venture and elect to participate at 30%;
- establish a joint venture and elect to participate at 51%, should a gold deposit of greater than 2,000,000 ounces be discovered, by paying the Company three times the Company's exploration expenditures. The optionor will finance the Company's 49% portion of mine development costs as a Libor plus 1.5% interest loan to be recovered from 80% of the Company's share of proceeds of production; or
- elect to reduce to a 2% NSR and receive either US \$500,000 of the Company's shares or US \$500,000 cash at the Company's option.

5. Mineral Properties, continued

(c) Battle Mountain - Granite Mountain

Pursuant to an agreement dated June 28, 2004, the Company leased certain patented fee land in Lander County, Nevada. The Company paid a finder's fee of US \$1,500, and granted an NSR of 0.5%, to an independent third party to acquire the option to this property.

The Company is required to make remaining AMR payments, until either the commencement of commercial production or the Company forfeits its interest, of:

- Annual payments on a monthly basis that will increase annually by 5%. The annual amount to be paid monthly for the year ended July 31, 2013 is US \$14,533.

The land is subject to 2% NSR on the commencement of commercial production, which the Company may reduce to 1% by paying US \$1,000,000 prior to the commencement of commercial production.

(d) Battle Mountain - Colorback

Pursuant to a minerals lease agreement dated December 8, 2010, as amended, the Company has the right to lease certain lands and unpatented mining claims located in the Cortez Mining District in Nevada, USA.

The Company must incur remaining property expenditures (of which 50% must be spent on exploration drilling during the second anniversary year) as follows:

- US \$150,000 on or before June 8, 2013 (firm commitment not affected by termination);
- an additional US \$300,000 on or before December 8, 2013;
- an additional US \$500,000 on or before December 8, 2014;
- an additional US \$750,000 on or before December 8, 2015; and
- an additional US \$1,250,000 on or before December 8, 2016.

The Company will be liable for annual rental payments of US \$20 per acre beginning December 8, 2017, and thereafter increasing by 5%, should the Company have not spent US \$100,000 in the preceding anniversary year. Prior to mine construction, the Company must also deliver a positive feasibility study on a deposit containing at least 500,000 ounces of gold.

Once the Company has completed these requirements, the optionor can either:

- (i) elect to form a joint venture and contribute US \$4,000,000 to earn 51% with an option to spend an additional US \$4,000,000 to earn an additional 19%, with further expenditures being spent according to the relative percentage of the venture ownership; or
- (ii) elect to receive US \$2,000,000 from the Company as payment for the property, subject to a 3% NSR, which the Company can buy down to 1% at the rate of US \$1,000,000 per percentage point.

(e) Other

Mountain Boy (Signal and Temple)

Pursuant to an option agreement dated April 22, 2005, as amended, the Company has the right to earn a 100% undivided interest in a group of claims in Eureka County, Nevada.

To earn a 100% interest in the Signal Claims, the Company is required to make remaining AMR payments of:

- US \$30,000 on or before June 20, 2013, and on every anniversary date thereafter.

To earn a 100% interest in the Temple Claims, the Company is required to make remaining AMR payments of:

- US \$30,000 on or before June 20, 2013, and on every anniversary date thereafter.

The claims are subject to a 2% NSR, of which the Company may reduce to 1% by paying US \$1,000,000 prior to the commencement of commercial production.

On July 25, 2011, the Company signed an earn-in option agreement with respect to the Signal Claims whereby the optionee could earn an initial 51% interest by incurring expenditures and issuing shares. On December 3, 2012, the Company received notification of termination of this agreement.

Battle Mountain - Pete Hanson, Three Bar, South Lone Mountain, South Gold Bar, North Lone Mountain, and Gabel Canyon

Pursuant to a finder's agreement dated November 1, 2003, the Company has the right to acquire certain groups of mineral claims located in Eureka and Lander Counties, Nevada. Certain proprietary research data was provided to the Company over the term of the agreement.

The Company acquired a 100% interest in the properties introduced, subject to a 1% NSR. The NSR may be reduced from 1% to 0.5% by paying US \$3,000,000 at any time. In addition, any property that is staked or otherwise acquired directly by the Company within the area of interest is subject to a 0.5% NSR.

Battle Mountain - SF

Pursuant to an agreement dated April 1, 2004, as amended, the Company acquired the right to earn a 100% interest in certain mineral claims located in Eureka County, Nevada.

Battle Mountain - SF, continued

To earn its interest, the Company is required to make remaining AMR payments of:

- US \$30,000 on or before March 11, 2013;
- US \$30,000 on or before December 11, 2013; and
- US \$30,000 on or before December 11, 2014.

The claims are subject to a 1% NSR, which the Company may reduce to 0.5% by paying US \$3,000,000 prior to the commencement of commercial production.

Battle Mountain - Half Ounce

Pursuant to an option agreement dated January 12, 2005, as amended, the Company had the right to acquire a 100% interest in certain unpatented mineral claims located in Eureka County, Nevada.

On October 30, 2011, the Company notified the original optionors that it exercised its termination clause and ended the option agreement.

Battle Mountain - Shoshone Pediment

On April 8, 2009, the Company entered into a six year lease / option purchase agreement with respect to certain of its 100% owned unpatented mining claims in Lander County, Nevada, whereby the optionee leased, with an option to purchase, the barite rights at the property. Payments of US \$25,000 (2009 to 2012 received) are due from the optionee on each anniversary date and the optionee will pay all claim fees during the option period. The optionee can exercise the option for a lump sum payment of US \$150,000, after which the Company will receive a royalty of US \$1.00 per ton of barite ore in excess of 150,000 tons.

Battle Mountain – NSR Project

Pursuant to an option agreement dated January 1, 2010, the Company has the right to acquire certain unpatented mining claims in Lander County, Nevada, and the immediate transfer of ownership of a logistical base in nearby Crescent Valley, which includes a work-shop and double-wide trailer for personnel.

The Company's remaining commitment to earn a 100% interest in the claims is to spend US \$2,000,000 over a maximum of six years.

Battle Mountain – NSR Project, continued

Within 60 days after the Company completes the earn-in, the optionor can either:

- establish a joint venture and elect to participate at 60% by spending US \$4,000,000 over a four-year period, with a minimum expenditure of US \$1,000,000 annually and producing a bankable-quality feasibility document;
- establish a joint venture and elect to earn a further 10%, for a total of 70%. At the Company's option the optionor will finance the Company's portion of mine development costs at market rates to be recovered from 80% of the Company's share of proceeds of production; or
- elect to reduce to a 2% NSR of which 1% can be purchased for US \$1,000,000 within six months of commercial production.

Highland

Pursuant to an option agreement dated June 12, 2002, as amended, the Company acquired the right to earn a 100% interest in certain mineral claims located in Lander County, Nevada. The Company subsequently staked additional claims, all of which are subject to the same terms and conditions.

To earn its interest, the Company is required to make remaining AMR payments of:

- US \$30,000 on or before the earlier of completion of a private placement, or within 2 weeks of executing a joint venture agreement; and
- US \$50,000 on or before May 13, 2013.

The claims are subject to a 3% NSR, which the Company may reduce to 2% by paying US \$1,000,000 prior to the commencement of commercial production.

The President of the Company holds a right to 20% of all property lease, purchase, advanced royalty or production royalty payments received by the optionors under the terms of the underlying agreement. To October 31, 2012, the President has received aggregate payments of US \$51,000.

Drayton

In January 2007, the Company exercised its option pursuant to an option agreement made in August 2002, as amended, and earned a 100% interest in certain mineral claims located in the Patricia Mining Division of Ontario.

The claims are subject to a 3% NSR, which the Company may reduce to 2% by paying \$1,500,000 and may be reduced further to 1.5% by payment of a further \$1,500,000 prior to the commencement of commercial production.

The Company would retain a 1% NSR in the property.

Baxter

Pursuant to an option agreement dated February 24, 2003, as amended, the Company has the right to acquire a 100% interest in certain mineral claims located in Churchill and Nye Counties, Nevada.

To earn its interest, the Company is required to pay remaining AMR payments of US \$25,000 annually commencing on March 1, 2008 (2008 to 2011 - paid; 2012 - reduced to US \$20,000 and deferred until on or before the earlier of completion of a private placement or March 1, 2013).

The claims are subject to a 3% NSR, which the Company may reduce to 2% by paying US \$1,000,000 prior to the commencement of commercial production.

The President of the Company holds a right to 50% of all property leases, purchase, advanced royalty, or production royalty payments under the terms of the option agreement. To October 31, 2012, the President has received aggregate payments of US \$100,000 in cash and 21,250 common shares of the Company.

Mud Springs

In April 2004, the Company staked certain mineral claims within the area-of-interest of the Baxter property, which are subject to the same terms and conditions as the Baxter property option agreement. No additional payments are due. The President of the Company holds a 50% beneficial interest in the mineral claims.

Buz

Pursuant to a property option agreement dated April 29, 2004, as amended, the Company acquired the right to earn an undivided 100% interest in certain lode mineral claims located in Lander County, Nevada.

To earn its interest, the Company is required to pay remaining AMR payments of US \$3,000 on or before the earlier of completion of a private placement or signing a joint venture agreement, and US \$30,000 annually commencing on May 1, 2013.

The claims are subject to a 3% NSR which the Company may reduce to 1.5% by paying US \$1,500,000 prior to the commencement of commercial production.

The President of the Company holds a one-third beneficial interest in the option agreement. To October 31, 2012, the President has received aggregate payments of US \$25,000 in cash and 17,000 common shares of the Company, which represented one-third of the AMR payments made and one-third of the shares issued in respect to this property since execution of the agreement.

East Manhattan

Pursuant to an option agreement dated October 25, 2007, the Company acquired a 100% interest in certain mineral claims located in Nye County, Nevada. The optionor retains a 3% NSR, of which 1% can be purchased for US \$1,000,000 any time prior to commencement of commercial production.

Zebra

Pursuant to an option agreement dated August 13, 2009, the Company had the right to acquire a 100% undivided interest in certain lode mineral claims located in Elko County, Nevada.

Effective August 31, 2009, the Company signed a LOI with Christopher James Gold Corp. ("CJG"). Effective May 29, 2012, the Company received notice from American Gold Capital US Inc. (successor in interest to CJG) that it exercised the termination clause and ended the agreement.

On May 29, 2012, the Company notified the original optionors that it exercised its termination clause and ended the option agreement.

8. Loans

During September 2012, the Company entered into two loan agreements, one with a public company with common directors and the other with a private individual, for \$275,000 and \$10,000, respectively.

Interest is payable quarterly at prime plus two percent per annum and the terms of the loans are for an initial period of six months, after which time all outstanding balances are repayable on demand. As further consideration for providing the loans, the lenders also received a bonus equal to ten per cent of the loan amount in common shares (Note 9(b)).

The Company, in its sole discretion, can elect to repay all interest and loan balances by the issuance of common shares.

Subsequent to initial recognition, the loans and bonus shares are carried at amortized cost with an effective interest rate of 14%.

9. Share Capital

(a) Authorized

The authorized share capital of the Company consists of an unlimited number of common shares without par value and an unlimited number of preferred shares without par value.

(b) Shares Issued for Loan Bonus

In accordance with two loan agreements, the Company issued 570,000 common shares with a fair value of \$28,500 (Note 8).

(c) Stock Options

The Company has a rolling stock option plan (the "Plan") that allows for the reservation of common shares issuable under the Plan to a maximum 10% of the number of issued and outstanding common shares of the Company at any given time. The term of stock options granted under the Plan may not exceed ten years and the exercise price may not be less than the closing price of the Company's shares on the last business day immediately preceding the date of grant, less any permitted discount. On an annual basis, the Plan requires approval by the Company's shareholders and submission for regulatory review and acceptance.

Bravada Gold Corporation (An Exploration Stage Company)

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

A. Introduction

The following Management's Discussion and Analysis ("MD&A") of the consolidated operating results and financial condition of Bravada Gold Corporation (the "Company" or "BVA") is for the three months ended October 31, 2012, and is dated December 20, 2012. This MD&A was prepared to conform to National Instrument 51-102F1 and was approved by the Board of Directors prior to its release. This analysis should be read in conjunction with the Company's unaudited condensed consolidated interim financial statements for the three months ended October 31, 2012, and the Company's audited consolidated financial statements for the year ended July 31, 2012, and the accompanying notes, which have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The Company's shares trade on both the TSX Venture Exchange ("TSX-V") under the symbol "BVA" and on the Frankfurt Stock Exchange under the symbol "BRT.F".

The Company's functional and reporting currency is the Canadian dollar and all dollar amounts included herein are in Canadian dollars, unless otherwise indicated.

Additional information relating to the Company is available on the Company's website at www.bravadagold.com and on SEDAR at www.sedar.com

B. Qualified Person

Joseph A. Kizis, Jr., AIPG Certified Professional Geologist No. CPG-11513, is the qualified person under National Instrument 43-101 ("NI 43-101") responsible for the technical information included in this MD&A. Mr. Kizis graduated from University of Colorado (M.S. in Geology) and Kent State University (B.S. in Geology), and has more than 36 years of experience in minerals exploration both with major mining and junior exploration companies.

D. Summary of Mineral Properties

The Company is exploring for precious metals in well-established gold trends in Nevada, one of the world's best gold jurisdictions. The Company has a large portfolio of properties covering a range of development stages from early-stage exploration to advanced-stage exploration and pre-development. The Company holds 18 Nevada properties, approximately 15,000 hectares, located in the Battle Mountain-Eureka, Walker Lane, Kings River Rift and Austin gold trends. The Company also owns the Drayton project, an Achaean gold property located in Ontario.

The Wind Mountain project is at the pre-development stage, with a NI 43-101 compliant resource and positive Preliminary Economic Assessment ("PEA"), which was updated in April 2012, and has the potential to become a near-term producer. The Company recently announced a funding and option-to-purchase agreement with Argonaut Gold Inc. (AR.T, "Argonaut") to further advance exploration and development at Wind Mountain. The Quito, Colorback / Granite Mountain, NSR projects are the Company's other most advanced exploration-stage properties. In addition to these sole-funded projects, the Company is currently seeking, or working with, qualified partners to advance select properties, several of which have drill-ready targets identified.

Wind Mountain

Wind Mountain is a low-sulphidation-type gold and silver property consisting of 206 claims (approximately 1,260 hectares) located within the highly prospective Walker Lane Gold trend approximately 160 kilometres northeast of Reno, Nevada with good road access and power.

The Company recently completed a drilling program of 12 reverse-circulation holes for 1,393 metres in total. All assay results are expected soon and will be evaluated prior to disclosure.

Two of the holes were on the Zephyr target and both drilled through quaternary alluvium and then into lake sediments that, when not eroded, overlie the gold mineralization hosted by the main host rock. The southern hole drilled 350 feet of alluvium, and the northern hole through 130 feet of alluvium, before entering the lake sediments, demonstrating the variability in bedrock topography beneath the current surface.

D. Summary of Mineral Properties, continued

Wind Mountain, continued

A gravity survey has begun in order to identify any topography highs of bedrock beneath the gravel.

Eight shallow holes were drilled southeast of the North Hill resource and two holes were drilled in the area between the higher-grade portion of the Breeze deposit and the Deep Min deposit.

The program is being funded by Argonaut under a Letter of Intent ("LOI") whereby Argonaut can fund staged expenditures totalling US\$7.5 million over a three-year period to earn the option to purchase the project.

US Geothermal Inc. ("HTM", "GTH.TO") plans to drill five deep holes to the west of the Company's resource, however, their timing is currently uncertain. The Company will receive a split of the samples for study and assay as part of a data-sharing agreement. Valuable stratigraphic and geochemical data will be obtained from these holes, which should assist with deep exploration targeting beneath existing resources.

Quito

Quito consists of 342 claims located on the Austin gold trend in Lander County, Nevada.

Modern 3D computer modelling has identified structural and stratigraphic controls that can be targeted for drilling on this large Carlin-style gold property. The property is a past producer with very attractive gold grades.

Although numerous exploration targets have been identified, initial drilling will be one or two core holes to test Lower Plate rocks beneath the un-mined historic "Russ resource", which is hosted by less favourable Upper Plate rocks. Drilling is planned for early summer of 2013.

Battle Mountain - Granite Mountain

Granite Mountain covers 129 hectares and is located in Lander County, Nevada in the Cortez district along the Battle Mountain-Eureka Gold trend.

Previous drilling identified a large halo of anomalous gold and pathfinder elements. In addition, anomalous gold and pathfinder elements occur in rock and soil samples. The Company acquired the adjacent Colorback property and speculates that Carlin-type gold mineralization may underly both properties.

Battle Mountain - Colorback

Colorback consists of private fee land and lode claims, a total of 1,420 hectares, and is located in the Cortez Mining district along the Battle Mountain-Eureka gold trend.

The property partially surrounds the Granite Mountain property, a small parcel of fee land that the Company has held for several years as part of its strategy to acquire prospective property positions in this prolific gold district.

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

D. Summary of Mineral Properties, continued

Battle Mountain - Colorback, continued

Carlin-type gold mineralization is exposed on the property at surface, in trenches, and in numerous historic drill holes. Mineralization occurs in Upper Plate Paleozoic sediments and Eocene intrusions; however, the Company believes highly productive Lower Plate Paleozoic carbonates provide a more attractive target for a large, high-grade gold deposit. Geologic 3D modeling has been completed and has identified several drill targets. One core hole is planned for 2013 to test the most attractive exploration target.

Mountain Boy (Signal and Temple)

Signal consists of 129 claims located in the northwestern portion of the Eureka Mining District in Eureka County, Nevada.

The Company's joint-venture partner has now drilled 9 core holes, 8 in a distant target relative to the Company's resource and one nearby, which intersected strong cave development, but gold values were reported to be generally weak (max 0.5g/t Au) with strong pathfinder elements.

Subsequently, the Company received a termination letter from the joint-venture partner. The Company will receive their data shortly, but has already identified attractive targets based on their mapping and the Company's previous drilling.

Temple consists of 54 claims located in the western portion of the Eureka Mining District in Eureka County, Nevada.

Historic drilling at Temple encountered Carlin-style gold mineralization and targets have been identified adjacent to previously drilled areas based on mapping and soil geochemistry. The Company is seeking a joint-venture partner to further test the property.

Battle Mountain - Pete Hanson

Pete Hanson consists of 59 claims and is situated approximately 56 kilometres northwest of Eureka, Nevada and is in the heart of the Battle Mountain – Eureka Gold trend.

Silicification and widespread anomalous gold and pathfinder geochemistry establish the presence of a strong Carlin-type gold system hosted by Lower Plate carbonate rocks. The Company's previous drilling intersected the highly favorable Roberts Mountain Formation with anomalous gold concentrations at moderate depth.

Several prominent faults host strong gold anomalies, several of which are more than 1g/t (high value 3.39g/t Au), and associated alteration consisting of strong hematite staining and silicification. Several favorable targets have yet to be drill tested and the Company is seeking a joint-venture partner to conduct the additional drilling.

Bravada Gold Corporation (An Exploration Stage Company)

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

D. Summary of Mineral Properties, continued

Battle Mountain - South Lone Mountain Claims ("SoLM")

SoLM consists of 52 claims and is a gravel-covered project located along a regionally significant geophysical "gravity break" underlain by favorable Lower Plate Paleozoic host rocks. Data generated or purchased by the Company and its previous partners include: geology and geochemistry from historic oil wells in Kobeh Valley and exposures at Lone Mountain, detailed gravity geophysics, 48 line kilometers of seismic geophysics, soil and gas geochemistry, and limited reverse-circulation and mud-rotary drilling. Samples from one of the historic oil wells contained significant gold mineralization at the base of Tertiary gravel, although the source of the gold remains unknown.

Claims were staked in 2010 to extend coverage of projections of Mississippi-Valley-type zinc/lead mineralization exposed nearby and identified on the SoLM property in soil samples. The Company is seeking a joint-venture partner to evaluate that mineralization.

Battle Mountain - SF

SF consists of 102 claims and is located in Eureka County, Nevada in the Cortez Mountains.

Several large Carlin deposits show evidence of overprinting by younger gold systems, an indication that their plumbing systems are deeply rooted. Both Carlin-type and low-sulphidation-type alteration are present, with narrow zones of Carlin-style geochemistry intersected in a drill hole directly east of the property. The target at SF is favorable Devonian-age Wenban limestone and Horse Canyon formation host rocks, which are both exposed in the western portion of the property and should be cut by a major fault projected beneath thin gravel cover on the eastern portion of the property.

The Company is seeking a partner to further explore this property.

Battle Mountain - Shoshone Pediment

Shoshone Pediment consists of 70 claims located in Lander County, Nevada.

The rights to barite at the property are currently leased, for which the Company will receive an advanced minimum royalty and a royalty for any barite produced. The leasee must also pay federal and county fees to maintain the claims and provide the Company with a split of any drill samples that they collect. The Company reserves the rights to explore for and mine gold and other metals.

Although there are no immediate plans to drill the property in search of gold, the Company believes that the best potential lies in the more prospective Lower Plate rocks at depth. Gold and pathfinder geochemistry on samples drilled by the barite company in Upper Plate rocks may provide vectors that will allow targeting for gold in Lower Plate rocks.

Bravada Gold Corporation (An Exploration Stage Company)

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

D. Summary of Mineral Properties, continued

Battle Mountain - NSR Project

NSR consists of 206 claims in located in Lander County, Nevada.

Much historic data has been obtained for the NSR project and adjacent properties, and that data has been compiled. Gold occurs in surface samples and in several historic drill holes, generally in the range of 0.5g/t, in Upper Plate rocks around an intrusion. An attractive target is the contact of the intrusion with Lower Plate rocks at depth.

Battle Mountain – Other

Gabel Canyon consists of 50 claims located along the northern portion of the Roberts Mountains in Eureka County, Nevada. Alteration and geochemistry of Lower Plate carbonates are suggestive of Carlin-style gold mineralization. The Company is seeking a joint-venture partner to further evaluate this property's potential.

North Lone Mountain consists of 56 claims located in Kobeh Valley. Prospective altered Lower Plate carbonates have been intersected beneath shallow gravel cover (30 to +100 meters thick) adjacent to the southern portion of the property, with altered and weakly gold-mineralized Upper Plate rocks intersected in and adjacent to the northern portion of the property. The Company is seeking a joint-venture partner to further evaluate this property's potential.

Three Bar consists of 42 claims located in the heart of the Battle Mountain Gold Trend approximately 55 kilometres northwest of Eureka, Nevada. Potential for shallow to deep deposits of gold and a possible northern extension of the Gold Bar feeder zone are indicated by regional gravity data. The Company is seeking a joint-venture partner to further evaluate this property's potential.

Highland

Highland consists of 66 claims located in the southwestern corner of Lander County, Nevada at the southern end of the Desatoya Mountains.

Drilling by the Company and other exploration companies intersected attractive gold and silver values in this largely gravel-covered, low-sulphidation gold and silver vein system.

The Company is seeking a joint-venture partner to drill targets newly identified by geophysics.

Drayton

Drayton consists of 7 claims located in the Patricia Mining Division of Ontario, near Sioux Lookout.

Geochemical and geological characteristics suggest the property is prospective for Archean gold vein and other styles of mineralization.

On September 19, 2012, the Company signed a letter of understanding with Duncastle Gold Corp., granting the sole right and option to acquire a 100% interest in the Drayton property.

Bravada Gold Corporation (An Exploration Stage Company)

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

D. Summary of Mineral Properties, continued

Baxter

Baxter consists of 51 claims located in the Walker Lane Gold trend of Nevada and is approximately 5 kilometres southwest of the Company's Highland Property.

Geochemical and geological characteristics suggest the property is prospective for low-sulphidation gold and silver vein mineralization. The Company is seeking a joint-venture partner to conduct an IP geophysical survey to further test the Chugiak and Last Chance structures at the property.

Mud Springs

Mud Springs consists of 33 claims located in Churchill County, Nevada within the area of interest of the Baxter property.

The Company is seeking a joint-venture partner to evaluate the potential for precious metal and molybdenum mineralization at the property.

Buz

Buz claims are located in Lander County, Nevada approximately 7 kilometres to the northeast of the Company's Highland property.

The property is a low-sulphidation epithermal gold/silver system. Surface samples of veins and historic small mine dumps contain gold and low concentrations of silver and base metals. Vein textures, geochemistry, and geologic setting indicate minimal erosion and suggest that the main zone of boiling and gold mineralization should lie at depth.

The Company is seeking a joint-venture partner to further develop the property.

East Manhattan

East Manhattan consists of 84 claims located in Nye County, Nevada at the eastern edge of the Manhattan Mining district.

Grades of mineralization encountered during the 2011 core program are similar to those intersected during the 2008 reverse-circulation drilling program, indicating that less-expensive reverse circulation drilling is adequate to further test shallow portions of the property in potential subsequent drill programs. Encouraging gold intercepts suggest mineralization extends under shallow gravel cover, where IP/resistivity geophysics could delineate drill targets.

The Company is seeking a joint-venture partner to drill these targets.

Millie

Millie consist of 42 claims and two parcels of private land located approximately 40 kilometres southwest of Winnemucca in Pershing County, Nevada on the Kings River Rift gold trend, a region with high magnetic signature and epithermal gold deposits, parallel to the prolific Northern Nevada Rift gold trend.

Bravada Gold Corporation (An Exploration Stage Company)

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

D. Summary of Mineral Properties, continued

Millie, continued

The property lies in an area of hot-spring alteration hosting anomalous gold mineralization in Tertiary volcanic and lacustrine rocks and presents the opportunity for discovery of bonanza-style, low-sulphidation, gold mineralization in an area with excellent access and logistical support. The Company continues negotiations to consolidate land at the prospect prior to incurring any significant exploration expenditures.

Acquisition costs

The Company's accounting policy related to expenditures incurred for the acquisition of mineral properties is to capitalize on a property-by-property basis, net of recoveries. During the three months ended October 31, 2012, the Company incurred acquisition costs on its mineral properties as follows:

	Balance July 31, 2012	Q1	Impairments	Balance October 31, 2012
	\$	\$	\$	\$
Wind Mountain	5,435,866	(1,069)	-	5,434,797

Total	8,272,367	203,277	(46,226)	8,429,418

Exploration costs

The Company's accounting policy related to expenditures incurred for the exploration and development of mineral properties is expense to the consolidated statement of comprehensive loss in the period in which they are incurred. During the three months ended October 31, 2012, the Company incurred exploration costs on its mineral properties as follows:

	Incurred to July 31, 2012	Q1	YTD	Incurred to October 31, 2012

E. Results of Operations

During the three months ended October 31, 2012, the Company reported a net loss and comprehensive loss of \$254,434 (2011 - \$552,810). The following table summarizes the variances in the consolidated statements of comprehensive loss prepared in accordance with IFRS:

	2012	2011	Variance	
	\$	\$	\$	%
Operating Expenses				
Administration	31,500	24,000	7,500	31%

Operator fee income	(9,277)	-	(9,277)	N/A
Comprehensive Loss				
Unrealized loss on marketable securities	-	500	(500)	(100%)

Administration expenses increased due to a revised services agreement that came into effect on July 1, 2012.

Consulting, investor relations, professional fees, shareholders' communications and travel and promotion expenses fluctuate based on the number of conferences and trade shows attended and other work performed in preparation of financing and reporting activities.

As per the Company's mandate to acquire, explore, and develop mineral resource properties, the Company has continued to invest in its mineral properties. However, expenditure incurred has decreased compared to 2011 as a result of a reduction in available financing.

A non-cash share-based payment expense was recognized with respect to stock options vesting in the period.

Mineral property impairments fluctuate based on quarterly assessments.

A non-cash interest accretion expense was recognized with respect to loan amortization.

As part of an exploration agreement, the Company is entitled to charge an operator fee of 10% on all exploration expenditures incurred under that agreement.

Bravada Gold Corporation (An Exploration Stage Company)

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

F. Summary of Quarterly Results

The following financial data was derived from the Company's consolidated financial statements for the eight previous quarters prepared in accordance with IFRS:

	Oct 31, 2012 \$	July 31, 2012 \$	Apr 30, 2012 \$	Jan 31, 2012 \$	Oct 31, 2011 \$	July 31, 2011 \$	Apr 30, 2011 \$	Jan 31, 2011 \$
Net loss	254,434	1,875,633	424,332	392,416	552,310	1,652,018	485,094	694,843
Basic and diluted loss per share	\$0.00	\$0.02	\$0.00	\$0.00	\$0.01	\$0.02	\$0.01	\$0.02

The Company earned no revenue during the periods presented other than minimal interest and other income due to the nature of the industry and its current operations.

Quarterly fluctuations mainly relate to recognition of share-based payments which varies as stock options are granted, foreign exchange gains and losses which vary with market rates and mineral property exploration expenses or impairments which occur as projects are identified and drilling results are analyzed.

Significant non-cash amalgamation adjustments were recognized in the three months ended July 31, 2011 and additional impairment charges were recognized in the three months ended July 31, 2012 and 2011.

G. Related Party Transactions

The Company entered into the following related party transactions during the three months ended October 31, 2012:

- (a) Under a service agreement, as amended and effective July 1, 2012, between the Company and a company privately held by a director and an officer of the Company, the Company was charged as follows:
- \$32,063 (2011: \$24,180) for office space and administration services;
 - \$28,430 (2011: \$21,270) for professional services;
 - \$20,250 (2011: \$3,285) for consulting services;
 - \$15,283 (2011: \$20,385) for investor relations services;
 - \$350 (2011: \$298) for geological consulting services; and
 - \$1,757 (2011: \$3,322) in respect of the mark-up on out-of-pocket expenses.

As at October 31, 2012 amounts payable under the agreement were \$130,431 (July 31, 2012 - \$67,933).

- (b) Fees relating to legal services in the amount of \$9,869 (2011 - \$9,581) were charged by a law firm controlled by a director and an officer of the Company and included in investor relations, professional fees, mineral property expenditures, and share issue costs. Amounts payable as at October 31, 2012 were \$21,205 (July 31, 2012 - \$10,066).

Bravada Gold Corporation (An Exploration Stage Company)

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

G. Related Party Transactions, continued

- (c) Fees relating to professional services in the amount of \$20,250 (2011 - \$20,250) were charged by a director and an officer of the Company. Amounts payable as at October 31, 2012 were \$60,480 (July 31, 2011 - \$nil).
- (d) Fees relating to professional services of \$7,500 (2011 - \$7,500) were charged by a private company controlled by an officer of the Company. Amounts payable as at October 31, 2012 were \$25,200 (July 31, 2011 - \$5,000).
- (f) Fees relating to investor relations and corporate development of \$nil (2011 - \$7,500) were charged by a private company controlled by a former director and officer of Bravo Alaska Inc.'s former parent company. Amounts payable as at October 31, 2012 were \$8,400 (July 31, 2011 - \$5,600).
- (f) Fees charged for management, geological, and mining consulting services of US \$18,750 (2011 - US \$18,750) were charged by a director and an officer of the Company. The charges are expensed or capitalized to mineral properties as appropriate. Amounts payable as at October 31, 2012 were \$40,932 (US \$40,974) (July 31, 2011 - advance of \$2,565 (US \$2,684)).

These transactions were in the normal course of operations and were measured at the fair value of the services rendered. Amounts due to related parties are unsecured, non-interest-bearing, and have no formal terms of repayment.

The key management personnel of the Company are the directors and officers of the Company. Certain executive officers are entitled to termination benefits in the event of a change of control equal to one hundred percent of the compensation that would have been paid during the unexpired term of their agreements. The remaining balance payable under the agreements' termination clauses as at October 31, 2012 was \$202,500 and US \$187,500. The Company has no other long-term employee or post-employment benefits. Compensation awarded to key management during the three months ended October 31, 2012 was as follows:

	2012	2011
Short-term employee benefits	\$ 51,249	\$ 51,523
Share-based payments	-	-
Total	\$ 51,249	\$ 51,523

During September 2012, the Company entered into a loan agreement with a public company with common directors for \$275,000.

Interest is payable quarterly at prime plus two percent per annum and the term of the loan is for an initial period of six months, after which time all outstanding balances are repayable on demand. As further consideration for providing the loan, the lender also received a bonus equal to ten percent of the loan amount in common shares.

Bravada Gold Corporation (An Exploration Stage Company)

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

H. Financial Condition, Liquidity and Capital Resources

The Company has limited financial resources and finances its operations by raising capital in the equity markets. For the near future, the Company will need to rely on the sale of such securities and/or enter into joint-venture agreements with third parties to provide working capital and to finance its mineral property acquisition and exploration activities. Since the Company does not generate any revenue from operations, its long-term profitability will be directly related to the success of its mineral property acquisition and exploration activities.

Although the Company has been successful in obtaining financing through sale of its securities, there can be no assurance that the Company will be able to obtain adequate financing in the future in light of factors such as the market demand for its securities, the general state of financial markets and other relevant factors. Failure to obtain such additional financing could result in delay or indefinite postponement of further exploration and development of its projects with a possible loss of some properties and reduction or termination of operations.

As at October 31, 2012, the Company had a working capital deficiency of \$675,616 (July 31, 2012 - \$294,143). The Company has been reducing general and administration costs, where possible, negotiating extended payment terms of its trade payables, and reviewing its capital expenditure plan and future commitments to identify opportunities to reduce or delay spending and payments.

As at October 31, 2012, the Company does not have sufficient working capital to meet the cash requirements for the Company's administrative overhead and maintaining its mineral interests in the year to come, therefore, the Company will be required to raise additional capital in order to fund its operations.

i) Commitments

Mineral Properties

In accordance with the Quito option agreements, if the option is terminated prior to incurring an aggregate expenditure of US \$500,000, any difference between actual and aggregate expenditures will become payable in cash in thirty days from termination.

In accordance with the Colorback option agreements the Company must incur exploration expenditures of US \$50,000, on or before December 8, 2011 (incurred), and an additional US \$150,000 (of which 50% must be on exploration drilling), on or before June 8, 2013, which are firm commitments not affected by agreement termination.

Service Agreement

Effective July 1, 2012, under an amended service agreement between the Company and a company privately held by a director and officer of the Company, the Company is being charged \$10,500 per month for office accommodation and services ("Basic Rent") and \$1,750 per month per dedicated office ("Specific Rent"). The Company may terminate the agreement through written notice at any time by paying the Basic and Specific Rents for the lesser of 24 months or the remainder of the term. The agreement expires on August 31, 2017, and the remaining minimum fee commitment based on current rental space as at October 31, 2012, was \$252,000.

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

J. Subsequent Events and Outlook

There are no other material events subsequent to the date of this document.

The Company is confident that its existing group of properties has potential warranting continued exploration. Activities over the ensuing year will focus on these assets. The Company expects to continue its strategy of collaborating with experienced mining companies to develop its properties and to advance them to production.

K. Financial Instruments

The Company's financial instruments include cash, other receivables, marketable securities, reclamation bonds, accounts payable and accrued liabilities, amounts due to related parties and loans

Other than cash, the Company's financial instruments have no material risk exposure. Risk is managed with respect to cash by risk management policies that require cash deposits or short-term investments be invested with Canadian chartered banks rated BBB or better, or commercial paper issuers R1/A2/P2 or higher. In addition, all investments must be less than one year in duration.

L. Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements and does not contemplate having them in the foreseeable future.

M. Disclosure Controls and Procedures

The Board of Directors, through its Audit Committee, is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Audit Committee is composed of three directors, who meet at least quarterly with management and, at least annually with the external auditors to review accounting, internal control, financial reporting, and audit matters. There have been no significant changes to the Company's internal control over financial reporting that occurred during the period that have materially affected, or are reasonably likely to materially affect the Company's internal control over financial reporting.

The Audit Committee has established procedures for complaints received regarding accounting, internal controls or auditing matters, and for a confidential, anonymous submission procedure for employees who have concerns regarding questionable accounting or auditing matters. The whistleblower policy is in accordance with National Instrument 52-110 Audit Committees, National Policy 58-201 Corporate Governance Guidelines and National Instrument 58-101 Disclosure of Corporate Governance Practice.

Being a venture issuer, the Company is exempted from the certification on Disclosure Controls and Procedures and Internal Control Over Financial Reporting. The Company is required to file Form 52-109FV1 for annual reporting and Form 52-109FV2 for interim reporting.

Management's Discussion and Analysis

For the Three Months Ended October 31, 2012

N. Risks and Uncertainties

The principal business of the Company is the exploration and development of mineral properties. Given the nature of the mining business, the limited extent of the Company's assets and the present stage of development, the following risk factors, among others, should be considered.

Exploration Stage Company

The Company does not hold any known mineral reserves of any kind and does not generate any revenues from production. The Company's success will depend largely upon its ability to locate commercially productive mineral reserves. Mineral exploration is highly speculative in nature, involves many risks, and frequently is non-productive.

There is no assurance that exploration efforts will be successful. Success in establishing reserves is a result of a number of factors, including the quality of management, the level of geological and technical expertise, and the quality of property available for exploration.

Once mineralization is discovered, it may take several years in the initial phases of drilling until production is possible, during which time the economic feasibility of production may change. Substantial expenditures are required to establish proven and probable reserves through drilling and bulk sampling, to determine the optimal metallurgical process to extract the metals from the ore and, in the case of new properties, to construct mining and processing facilities.

Because of these uncertainties, no assurance can be given that our exploration programs will result in the establishment or expansion of resources or reserves.

No Operating History and Availability of Financial Resources

The Company does not have an operating history and does not generate significant revenues and is unlikely to do so in the foreseeable future. Hence, it may not have sufficient financial resources to undertake by itself all of its planned mineral property acquisition and exploration activities. Operations will continue to be financed primarily through the sale of securities.

The Company will need to continue its reliance on the sale of such securities for future financing, which may result in dilution to existing shareholders. Furthermore, the amount of additional funds required may not be available under favorable terms, if at all. Failure to obtain additional funding on a timely basis could result in delay or indefinite postponement of further exploration and development and could cause the Company to forfeit its interests in some or all of its properties or to reduce or discontinue its operations.

Price Volatility and Lack of Active Market

In recent months, the securities markets in Canada and elsewhere have experienced a high level of price and volume volatility, and the market prices of securities of many public companies have experienced significant fluctuations in price which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. It may be anticipated that any quoted market for the Company's securities will be subject to such market trends and that the value of such securities may be affected accordingly. If an active market does not develop, the liquidity of the investment may be limited and the market price of such securities may decline below the subscription price.

N. Risks and Uncertainties, continued

Competition

The resource industry is intensively competitive in all of its phases, and the Company competes with many other companies possessing much greater financial and technical resources. Competition is particularly intense with respect to the acquisition of desirable undeveloped properties. The principal competitive factors in the acquisition of prospective properties include the staff and data necessary to identify and investigate such properties, and the financial resources necessary to acquire and develop the projects. Competition could adversely affect the Company's ability to acquire suitable prospects for exploration.

Government Regulations and Environmental Risks and Hazards

The Company conducts exploration activities in the United States and Canada, and is subject to various federal, provincial, state laws, rules and regulations, including environmental legislation. Environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions. If the restrictions adversely affect the scope of exploration and development on the resource property interests, the potential for production on the property may be diminished or negated.

The Company has adopted environmental practices designed to ensure that it continues to comply with environmental regulations currently applicable to it. All of the Company's activities are in compliance in all material respects with applicable environmental legislation. Environmental hazards may exist on the Company's properties, hazards that are unknown to the Company at present, which have been caused by previous or existing owners or operators of the properties. The Company is not aware of any existing environmental hazards related to any of its current or former property interests that may result in material liability to the Company.

Title to Property

Although the Company has exercised the usual due diligence with respect to title to properties in which it has a material interest, there is no guarantee that title to the properties will not be challenged or impugned. The Company's mineral property interest may be subject to prior unregistered agreements or transfers, aboriginal land claims, government expropriation and title may be affected by undetected defects. In addition, certain mining claims in which the Company has an interest are not recorded in the name of the Company and cannot be recorded until certain steps are taken by other parties.

Dependence on Key Personnel

The Company is dependent on a relatively small number of key directors, officers and senior personnel. Loss of any one of those persons could have an adverse effect on the Company. The Company does not currently maintain "key-man" insurance in respect of any of its management.

Licenses and Permits

The operations of the Company require licenses and permits from various government authorities. The Company believes that it holds all necessary licenses and permits under applicable laws and regulations for work in progress and believes it is presently complying in all material respects with the terms of such licenses and permits.

However, such licenses and permits are subject to change in various circumstances. There can be no guarantee that the Company will be able to obtain or maintain all necessary licenses and permits that may be required to explore and develop its properties, commence construction or operation of mining facilities or to maintain continued operations that economically justify the cost.

O. Proposed Transactions

Other than normal course review of monthly submittals, there are no other new acquisitions or proposed transactions contemplated as at the date of this report.

P. Forward-Looking Statements

Some of the statements contained in this MD&A may be deemed "forward-looking statements." These include estimates and statements that describe the Company's future plans, objectives or goals, and expectations of a stated condition or occurrence. Forward-looking statements may be identified by the use of words such as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties.

Actual results relating to, among other things, results of exploration, reclamation, capital costs, and the Company's financial condition and prospects, could differ materially from those currently anticipated in such statements for many reasons such as but not limited to; changes in general economic conditions and conditions in the financial markets; changes in demand and prices for the minerals the Company expects to produce; litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; technological and operational difficulties encountered in connection with the Company's activities; and changing foreign exchange rates and other matters discussed in this MD&A.

Readers should not place undue reliance on the Company's forward-looking statements. Further information regarding these and other factors, which may cause results to differ materially from those projected in forward-looking statements, are included in the filings by the Company with securities regulatory authorities. The Company does not assume any obligation to update or revise any forward-looking statement that may be made from time to time by the Company or on its behalf, except in accordance with applicable securities laws, whether as a result of new information, future events or otherwise.
