December 2011

Bravada Gold Corporation is a premier Nevada-focused exploration and development company, exploring for precious metals in well-established gold trends in one of the world's best gold jurisdictions. The company has a large portfolio of high-quality properties covering a range of development stages from early-stage exploration to advanced-stage exploration and pre-development.

The company was formed by the amalgamation of Fortune River Resource Corp and Bravada Gold Corporation, itself a spin-off of Bravo Gold Corp's Nevada property holdings. Bravada controls 22 Nevada properties, approximately 20,000 hectares, located in the Battle Mountain-Eureka, Walker Lane, Northern Nevada Rift, Austin, and Kings River Rift gold trends. The company also owns the Drayton project, an Archean gold property located in Ontario.

Project Priority

- **Wind Mountain** - An updated resource estimate and Preliminary Economic Evaluation is now underway and is expected to be completed in the 1st Quarter of 2012. The Company's recently completed 50-hole drilling program succeeded in expanding shallow, oxide gold and silver mineralization in several areas.
- **Quito** – Compilation of historic data has been completed and geologic modeling is underway to identify drill targets for 2012. Carlin type of mineralization.
- **Granite Mountain/Colorback** – Compiled and verified historic data, developing 3D model. Field work underway to develop drill targets. Carlin type of mineralization.
- **East Manhattan** – Completed 1000m core drilling in 5 holes to follow up encouraging 2008 RC drilling. Low-sulfidation type of mineralization.
- **NSR** – Acquired additional claims to develop partially defined drill targets. Carlin type of mineralization.

Project Priority (cont'd)

- **Shoshone Pediment** – Assay drill chips and evaluate results from Baker Hughes drilling of barite resource, which the Company has leased to Baker Hughes, retaining rights to other metals. Carlin type of mineralization.
- **Pursue partners for other projects** – Recent joint venture with Terra Rossa Gold Ltd for Signal property. Several other properties have drill targets identified, permitted & bonded. Carlin and low-sulfidation types of gold mineralization, a Mississippi Valley type of zinc mineralization, and a Climax type of molybdenum mineralization.

Directors and Management

Lawrence Page, Q.C., Chairman
Joseph A. Kizis, Jr., President
Richard Hughes, Director
Paul Dircksen, Director
Terry Eyton, Director
Ross McDonald, Director
John R. Kerr, Director
Michael Rowley, Director
Scott Hean, Director
Derek Page, CFO
